### Product Description

Our wine shop with its attached sales counter is sure to delight any wine lover. In the display in front of the shop window are fine wines and the filled red wine boxes are stacked under the shelf. In the shop window itself are porcelain jugs and plates decorated with vines, wine glasses and cheese. The Chianti bottle deserves special mention. It is made of real glass, mouth-blown, and filled with real wine, therefore also sealed with a typical wine cork. With this shop you can make every wine connoisseur happy.

Reutter's illuminated miniature shops are a real eye-catcher. The filigree miniatures are set in scene with hidden little lights. The little lights make the porcelain glitter and sparkle. In this way, the loving details are shown to their best advantage and the warm light creates a cosy atmosphere.

The filigree workmanship and the love of detail give our miniatures their very special Reutter flair. All of our porcelain pieces with gold decoration are hand-painted with 24-carat gold and fired at 800°C. Our miniature works of art inspire people all over the world and often awaken a previously undiscovered passion for collecting. All our miniatures are handcrafted with dedication and care. Each Reutter miniature is unique and is made personally for you.

The original may differ slightly from the picture. All individual parts are fastened in such a way that they cannot come loose.

Our illuminated miniature shops are equipped with small LED lights. The LED strip is attached to the ceiling, the cable runs in the door frame and is not visibly tucked away under the shelf. The light can be switched on and off by a slider. From the front, you can easily reach the switch through the open door and there is a slot in the back wall for changing the battery.
