Product Description

Antique Shop brown

If you are looking for a real treasure, you should look at our Antique Shop. Filled with all valuables of the past, like dueling pistols, old jewelry and paintings, clocks and precious porcelain, all items typical for antique stores. In the front of the shop window you can find an old leather suitcase, an aviary and antique dishes, like the red luster tablet, which is only manufactured with high effort.

Our store fronts are built of stained willow or birch and include the shop display window and door window. The glass panes are imprinted with frosted gold ornaments and protect the miniatures from dust. As we use real glass, there is also no need to worry about scratches or blind spots. For access, the shop door opens upwards. Individual pieces are fixed so they can't fall out. All terrace shops can be propped or hung up. One can also easily upgrade the shop with LED-light by using the opening on the back side.

Skilled workmanship and love of detail gives our miniatures their own special Reutters look. All our gold decorated porcelain pieces are hand painted in 24k and fired in a kiln up to three times at 800°C (1470°F). Our miniature masterpieces fascinate people all over the world and awaken an undiscovered passion for collecting.

At Reutter we hand craft our miniatures with strict attention to detail and love, so that you can have your own unique copy at home. Your original may vary slightly from the picture. Our miniature products are not suitable for children under 14 years old.
