Product Description

"Biedermeier" chair

The Biedermeier furniture does not follow a uniform style, but is also characterized by simple elegance. They were less representative in character, but were intended to give the impression of comfort and above all to be functional. The first furniture of this kind was created in Vienna, with English furniture serving as a model. Great importance was attached to the quality of craftsmanship during production.

Let us take you into the wonderful world of miniatures. We have put together a variety of small compositions for you, suitable for every occasion. Everything from the house of Reutter is created with love for detail and carefully handcrafted, so that you are guaranteed to always have a small unique piece in your home.

Our miniature articles are not suitable for children under 14 years of age.
