Product Description

Umbra Bellwood napkin holder Give your table decoration a stylish and inviting touch with the Bellwood napkin holder. The weighted base is made from recycled plastic and finished with warm wood accents. Its clever design keeps napkins neatly in place, while a non-slip rubber grip provides stability and makes it easy for guests to remove individual napkins without making a mess of the rest of the napkin stack. Thanks to the integrated wooden handle, the napkin holder can be easily transported between the work surface, dining table or patio and is always ready to hand. A versatile accessory that adds both practicality and style to your culinary ambience. Combine it with other products from the Bellwood collection for a harmonious overall look. Suitable for 20 x 20 cm napkins, made from recycled plastic and wood from sustainable forestry. **STYLISH & FUNCTIONAL:** Made from metal with real wood accents that add a warm and elegant touch to any dining table. **EASY TO REMOVE & PRACTICAL HANDLE:** Allows you to easily remove individual napkins and offers convenience for your guests. The integrated handle also makes transport easier. **SECURE HOLD:** A wooden dowel reliably holds the napkins in place, while the non-slip base of the napkin holder ensures that the stack of napkins remains stable during use. **PART OF THE BELLWOOD COLLECTION:** Complement your interior with our popular Bellwood collection, which includes perfectly coordinated accessories such as a kitchen roll holder, rotating organiser, storage container, spice rack and more. **ORIGINAL DESIGN & SATISFACTION GUARANTEED:** Our team of international designers brings thought, creativity and original design to everyday objects. Umbra products are made from high quality materials. Choose the original from Umbra
