Product Description

CAPPA Curtain Rod, 91-168 cm, nickel

Windows are an essential part in your home and can greatly change the appearance of a room by attaching attractive curtains or drapes. But to make them look really good, you need a curtain rod that matches the curtains or drapes you choose and fits in with the room decor without being too dominant. The modern yet simple design of Cappa discreetly highlights your curtains or drapes without distracting from them. The clean, minimalist style and brushed finish is an interior designer's dream, as it harmonizes with almost all interior styles and colors. Unlike cheaply made curtain rods that bend and lose their shape over time, Cappa is made of high quality metal. Cappa has a diameter of 1.9 cm, which can be used for a variety of curtains and drapes and offers a load capacity of up to 10 kg. Everything you need to quickly attach Cappa to the wall is included: 2x metal end pieces, 3x adjustable wall brackets (just as brushed nickel as the curtain rod), screws, dowels and installation instructions. New curtains or drapes in your bedroom, living room, dining room or kitchen offer a quick and inexpensive change of decor.
